

## eTapestry's Lifetime Training Agreement

### What is it?

It's a constant struggle for every nonprofit organization. You are faced with the need to keep your current staff fully trained, make sure new staff members are educated, and get volunteers the training they need. But the expense and the scheduling are often prohibitive, so you try to struggle through things on your own, try to teach yourself - and other staff - and accept the fact that you may be doing things the hard way. You are also keenly aware that your success at getting the most benefit out of your database is directly related to the training your staff receives.

A new service from eTapestry puts an end to these struggles. It's called a Lifetime Training Agreement and it gives you unlimited training for all members of your staff.

### How does it work?

With a Lifetime Training Agreement, you pay a one time fee plus a percentage of your eTapestry service fee for unlimited use of eTapestry's 101, 102, 201, 202, and 301 web-based training programs, any of our specialty training classes, and links to our recorded training sessions. You can train your entire staff as often as you wish!

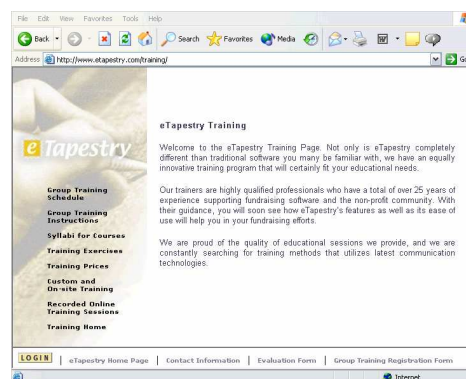

Do you have multiple staff members at multiple locations with different schedules to coordinate? Need to take a class more than once to be sure you got all the details? Need a refresher or want to focus on a particular area of eTapestry? Have a new employee that needs initial training? If so, a Lifetime Training Agreement may be just what you need! Users can attend training at times that fit their schedules and learn at a pace that works best for them. New employees, volunteers, board members, or anyone else in your organization can learn the best way to use eTapestry, without spending additional dollars.

To participate in a class, each member of your organization simply goes online to [www.etapestry.com/training](http://www.etapestry.com/training) and registers for any available training class, date, and time of their choice from our published training schedule. Each registrant is contacted directly with details on how to prepare for the web training and provided the necessary login information for joining the class.

### Summary

The cost of a Lifetime Training Agreement is a one time fee of \$900 plus 25% of your eTapestry license fee (based on number of accounts and concurrent users – minimum of \$300/year). Subsequent years renewal for Lifetime Training is 25% of your license fee.

The Lifetime Training Agreement gives you unlimited use of all web-based classroom training sessions and all recorded training links. Limit of 3 participants from an organization per session. Participation is subject to availability and cancellation fees apply. Don't let lack of training hold you back! Make the Lifetime Training Agreement an investment in your staff.
